James gives his age in the census records of 1850 as 72 & 1860 as 83 which would make his birth date 1778 or 1777. It is a possibility that whoever gave his age at the time of his death in 1863 as 82y 9d didn't really know how old he was. Since he was living with his youngest child Francis Marion

## Generation 4 (con't)

Sturdevant at the time of his death we might assume that he is the one who gave the information. The years of 1777, 1778 or 1781 all work, James is the last child born to John and Mary and his mother would have been almost 47 if the birth date of 1781 is correct. The birth previous to James was brother Samuel in 1775.

"The old Charlestown and Salem Road ran through the Sturdevant land. Although the road ran through a heavily wooded wilderness, it was lined with travelers in covered wagons and horse back riders. On this road, on the farm later occupied by Daniel Elrod, James Sturdevant built a log house which was used as a tavern by those early travelers."
